Some combinations really do speed things up...

...it all depends if you have the right combination

And **Doctor Waldon** do we have the right combination for you and your practice. The opportunity to speed up your billing and cash flow dramatically.

DGL Solutions, your trusted supplier of practice management software, and Healthcode, The trusted technology at the heart of the Healthcare community, have teamed up to offer you the fastest and best electronic billing available.

But, we can hear you saying, what are the cost implications? Am I going to be charged a fortune, as so often happens when two companies get their heads together and offer a "much improved service"?

The answer to that is no. The cost of sending a bill electronically starts from just 1 credit (9p each)*, at that price the benefits far outweigh the small charge.

What are the benefits?

Efficiency

- Faster delivery time
- Avoids potential loss in transit and postal strike
- Validation of bills pre-delivery to insurers and advises data anomalies at the time of submission.
- Receipt of delivery

Security

- Secure transmission of sensitive information

Superior cash flow

- Faster payment from insurers accepting bills electronically and thereby the potential to significantly improve practice cash flow

Reduces costs

- Saves administration time and cost
